

Nominal/high-confidence vegetation fires (type 0). Rings: 0–100, 100–300, 300–500 km; sector lines at bearings 45°, 180°, 315°.
The download box (69–78 E, 27–35 N) truncates the 300–500 km ring to the east and north. Sectors are
geometric (by bearing), not national: the east/south-east sector also contains Pakistani districts south-east of Lahore.
Borders: Natural Earth 1:10m (public domain); dashed = disputed or line of control. Boundary depiction does not imply any position on disputed territory.
